BIRCHVILLE GARDENS  
PLAINVILLE . . . CONNECTICUT

## GREETINGS

In placing before you our 1948 catalog of choice gladiolus, we once again take the opportunity to thank our many friends and customers for their continued support and for the many fine letters of appreciation.

We offer a choice of the world's best gladiolus, both old and new, and can supply selected, hand cleaned, highest grade corms which are sand grown, disease and thrip free.

As we predicted, our last season's releases proved immensely popular. Reports from growers stamp Venida as the best glad since Picardy; our new releases, Dorothy Armstrong and Skyway, are right up to the High standard we have set, and we feel equally confident they will make friends where ever they are grown.

I invite your inquiries on any subject concerning "Glads" and am never too busy to reply to even the smallest matters.

We wish to assure all our customers that we will give their orders our personal attention and do everything within our power to see that they receive the utmost value for their investment.

BIRCHVILLE GARDENS

— James A. Milo

## BUSINESS TERMS

### Please Read Carefully

We do not substitute unless instructed to do so. A second choice or next size preferred is advisable if your order is sent in late in the season.

NO orders for less then \$2.00 will be accepted.

When a variety is listed at 2 for .10 or 2 for 15 cents, please do not order a smaller number at a lower price. Five bulbs will be sold at one-half the ten rate, but no single item will be accepted for less then 10 cents. Where bulbs are priced each, ten bulbs will be sold for the price of eight. One hundred will be sold at eight times the ten rate.

All retail orders prepaid to all points in the United States.

On cash orders of \$5.00 or more you can select 10% extra in bulbs of your own choosing.

This does not apply to collection, special offers, wholesale orders or 1948 introductions.

All Canadian customers must send import permit with order from Dept. of Agriculture.

**SKYWAY (Dr. H. W. Stevens 1948) 70 Days**

Very early clear light pink with a white and cream throat. While the color description sounds common; let me assure you that this is a very beautiful glad which will become one of the leading cut flowers. It will open 7 on a 32 inch flowerhead of 18 to 20 buds. The 5½ inch florets are well attached on 58 inch spike which is always straight, received an Award of Merit and best 3 spikes at Connecticut also Award of Merit at New York. "A" rating at New Jersey show.

Price \$10.00 each for any size. Bulblets sold only with the purchase of bulb. One bulb and 10 bulblets for \$20.00.

**DOROTHY ARMSTRONG (Beardmore 1948)**

A medium shade of purple that has lots of class. Tall, graceful, wiry spikes. Eight wide open 4½ inch florets on a long flowerhead. A one hundred percent cutter that stands the heat very well. It is a strong grower and a good propagator. Shown at the Connecticut and New York shows this past summer it won five blue ribbons. I believe that it will go clear to the top and become the leading purple cut flower.

Growers who have seen this are buying stock. Our stock is now limited, so order early.

Price per each: Large \$3.00, Med. \$2.00, Small \$1.00, Bulblets 10 for \$3.00.

Growers special 2 Lge. 5 Med. 10 Sml. 200 Blts. for \$45.00.

**DOROTHY ARMSTRONG****PREVIOUS INTRODUCTIONS****VENIDA (Milo 1947) 460 88 Days**

Our 1947 introduction is a beautiful rose with a cream blotch grows 50 to 60 inches tall with 24 to 28 buds on a very long flowerhead. Eight open with five showing color. We have wonderful reports from growers who tried this, two of them say "Its the best glad since Picardy", others say "Most beautiful glad yet". We were sorry to have to refuse orders last year but stock soon exhausted. This year we have a fair stock of Med. and small bulbs but our stock of large bulbs is limited. So if you prefer this size order early.

Price each: Large \$4.00, Med. \$3.00, Small \$2.00, Bulblets 10 for \$4.00.

**YANKEE LASS (Schenetsky 1946) 440 87 Days**

A glad I am very happy to have introduced. One of the finest glads in the light shades. Opens eight to ten 5 ince florets on a strong, 60 inch spike. Color is a beautiful shell pink without markings. Must be seen to realize its unusual sheer beauty. Every spike comes straight and true with all florets perfectly placed. A vigorous grower and good propagator. I am sure that in a few years this will become one of the largest winners of all times. See list for prices.

Growers special: 10 Large 10 Medium 20 Small 100 Bulblets for \$60.00.

**ABIGAIL (Myers 1946) 336 70 Days**

Another of our introductions which didn't need a push to reach the top. In 1946 we introduced this wonderful lavender without too much publicity, we knew then that it would go places, and it has in a big way. Wins wherever it is shown. Has an award of Merit from the Maryland Trail Gardens. Color is about the same as Minuet. Opens seven to nine fairly large florets on a 50 to 60 inch spike, double row placement. Wonderful propagator and heading for a top spot as a cut flower Had wonderful reports from Florida this past season. See list for prices.

Growers Special: 10 Large 20 Medium 20 Small 200 Bublelets for \$50.00.

---

The following varieties I am introducing in conjunction with the originators or other introducers:

**FROM BYRON R. KADEL****SPRING SONG Red Penny X Libelle.**

Spring Song is recommended to fill the needs of anyone looking for a large-flowering, early, lavender gladiolus for the cut-flower trade. Florets are large, ruffled and have a throat marking of a deeper shade. Flower-head measures 27 inches and usually carries 16 buds although 20 buds are not uncommon on first spikes. Overall height of plant is 50 inches. Stem is consistently straight. Large bulbs produce two spikes. An interesting feature of this variety is that a planting of uniform size bulbs is "cut-out" in 8 days, only a very few stragglers remaining after that time. Here in Lebanon our early planting comes into bloom on the first of July. Spring Song is healthy and holds its green foliage until quite late in the fall. It is an excellent propagator and frequently blooms from bulblets.

Introductory prices: \$2.00 each, 10 for \$16.00.

Bulblets will be sold only in combination with bulbs: 12 for \$2.00 may be purchased with each bulb.

**FROM ELMER GOVE**

**EVANGELINE** (Palmer 1947) Greta Garbo X Elizabeth the Queen.

Large ruffled light rose with cream yellow throat. Late mid-season. Grows up to 5½ feet or more with a strong straight stem and heavy foliage. Opens up to 12 florets with 18 to 20 buds. Very strong grower from bulblets, about every one germinates and makes large growth. A very beautiful variety that has won too many awards in the past two years to list. Mr. Fortnam says it is the best variety he has ever grown. This alone should be enough to sell all the stock available.

Price \$10.00 each for any size but no bulblets this year.

**FROM CARL FISCHER**

**ROSE CHARM** (Lavender Gold X Maid of Orleans X Picardy)

Rings the bell on four scores—earliness, vigor, propagation, and color. Produces an absolutely ideal stem that does not crook in the hottest weather. The plant attains a height of 46 to 50 inches with a 24 inch flowerhead. Opens 5 to 6. Four and ¼ inch florets on a stretchy slender stems. The color is a crystalline rose with a large contrasting cream blotch. Comparable to the hues of Venida and Topflite. A must for growers of early cut-flowers.

Prices \$2.00 each any size 12 for \$20.00 Bulblets 10 for \$1.00 100 for \$8.00

Special Units:

1 Large	1 Medium	2 Small	10 Bulblets	\$6.00
2 Large	5 Medium	25 Small	200 Bulblets	\$25.00
5 Large	10 Medium	50 Small	½ Pt. Bulblets	\$60.00

**ROSE CHARM**

FROM GEORGE SNYDER

**CORSAIR** (American Commander x Glamis) 80 Days

A rosy tone red blending to Rose Red on lower throat petal with faint white line on lower petal. The blooms are 6 ins., wide open, lightly ruffled, waved and fluted. Grows 56 inches tall and opens 8 to 9 blooms on a 26 inch flowerhead with 22 buds. Propagation and germination good. Very healthy. This was in the top scores at Michigan Trials in 1946 and Highest score and Champion seedling at Michigan state show 1947. Also 1st Ohio State with 9 open, truly a wonderful cut flower, will become very popular.

Price \$5.00 any size, 10 bulblets for \$5.00 sold only with purchase of bulb.

**CHIEF PONTIAC** (Grand Opera x Hindenburgs Memory) 85 Days

Smooth orange scarlet blending slightly deeper in throat, almost self color. Opens 6 or 7 six inch lightly waved blooms on very vigorous plants, growing to 65 inches tall and have had them up to 72 inches. A long 30 inch flowerhead with 19 buds. Propagation and germination good. This variety is a strong grower, blooms from small bulbs approximate size of other varieties from large bulbs. Definitely has a great cut flower future. Very healthy.

Price \$5.00 each any size 10 bulblets for \$5.00 sold only with purchase of bulb.

---

FROM HUMPHREY HEDGECK

**ATOM** (Hedgecock 47)

An outstanding variety for connoisseurs, breeders, commercial growers and home gardens. A gorgeous variety that unlike most small flowering varieties has a well balanced and stretchy flowerhead. In regards to growing habits ATOM has reached perfection in its class. The most talked of glad of the past 3 years as its show record will prove. Received an Award of Merit at both seedling and annual shows by the New York Horticultural Society. Also award of Merit at Connecticut in 1945. In 1946 received first class certificate at New York also 1st at Conn., Binghamton, Empire State and New Jersey shows. First time offered at popular prices.

Large \$2.50 Medium \$1.50 Small \$1.00 Bulblets 10 for \$2.50

FROM BUCHANAN

**LADY ANNE** A beautiful pure white lightly ruffled with pale canary throat. 8 open with 6 showing color the large florets are firmly attached to a strong stem, have reports that this is better than Texas. The large florets are well placed and roll back in such a way as to give a definite pointed effect. A must-have for the commercial grower. Good stocks make the following low prices possible.

Per 1	Large \$1.00	Medium \$ .75	Small \$ .50	Bulbs 10 for \$1.00
Per 10	Large \$8.00	Medium \$6.00	Small \$4.00	Bulbs 100 for \$8.00

SPECIAL ANNOUNCEMENT

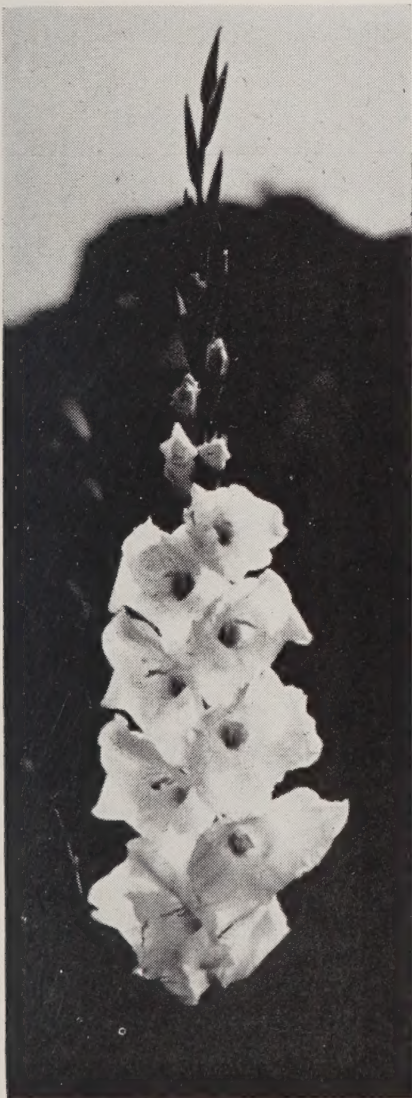

We are proud to announce that Birchville Gardens have been chosen Exclusively in the United States to Introduce the New and most recent Harris Origination. Mr. Harris is one of the best known originators from Canada. The Harris varieties are well known in Canada where they have met the approval of all who have given them a trial.

I feel certain that they will soon be largely grown in this country, for such varieties has FLORENCE NIGHTINGALE, BETTY'S CHOICE, MOONRAY, GAY-LORE and HOSTESS are bound to make the headlines and be raised by both fancier and commercial growers. ARCTIC SNOW and YANGTZE, two of his older ones, are becoming very popular in the U. S. A.

All of these introductions are most worthy and are priced within the reach of all. Every one should try at least a few of the Newer ones and get a start while the stock is still available.

All my Canada customers will please buy direct from Mr. Harris you will be pleased with his stock and treatment.

J. W. HARRIS — R. R. No. 1, Sarnia, Ontario

Florence Nightingale

FLORENCE NIGHTINGALE

Mrs. T. E. Langford X Pfitzers Triumph

Simply a marvelous glistening white, which is heavy petaled and ruffled, is beautiful beyond description for it has everything. Absolutely no flecks Grows 68 inches tall 28 inch flowerheads. Opens 6 to 8 well placed florets on a 21 bud spike. The 5½ florets are firmly attached to a strong spike which has received top rating in Canada trial gardens, growers will be interested in Florence Nightingale not only for its wonderful qualities but also for the absence of Picardy blood.

Following low prices due to Mr. Harris who doesn't believe in high prices.

Other Harris origination in regular price list.

SPECIAL OFFER

2 Large	2 Medium	2 Small
25 Bulblets for \$8.00		

**FROM L. W. BUTT**

We are proud to present three distinctly new glads from the originator of Red Charm, Firebrand and Blue Ice, and feel sure that they will become very popular.

**COTILLION (Beacon X J. S. Bach)**

Deep pink with a creamy yellow throat. Not an unusual color but a very useful one, especially for the florist. What makes this variety most valuable is that it will open very easily ten perfectly placed florets at once, often more. Tall grower, 55 inches with 25 inch flowerheads, and 18 to 20 buds. Slightly frilled florets about 5½ inches. A few spikes will come crooked like Beacon, but one spike is a real bouquet and it will be difficult to top this for best spike in the show. Midseason.

Bulbs any size \$3.00 each.

**REDOWA (Sdlg. 40283) (Admiral x Red Charm)**

Bright scarlet red with darker red throat mark enhancing its beauty. Tall grower 55 inch with 27 to 28 inch flowerheads, 18 to 20 buds. Florets 5 inches wide, very slightly frilled with 7 to 9 open at once, regularly placed and firmly attached.

Bulblets of this variety grow extremely well and flower freely, developing lots of cutable spikes which stay green until dug. An easy grower and most valuable for both exhibition and florists' work. Midseason.

Bulbs any size \$3.00.

**COTILLION**

REDOWA

ADORATION

**BLUE BOY** (Sdlg. 37173) (Josef Haydn x Blue Sdlg.) (Joyful x Triumph)

Deep blue violet with a deeper throat. A very fine and attractive color. It is not a tall grower averaging about 43 inches, although flowerheads are of good length 23 to 24 inches carrying 18 to 20 buds. Florets about 5 inches across with 6 to 7 open, well placed.

Three spikes shown in the seedling section of the 1947 Quebec gladiolus show were very much admired. It is a new color and will be a welcome addition as it is a fine sturdy grower and makes disease free bulbs.

With reasonably good culture you get spikes of good height and for every purpose, garden, exhibition and florists' use this variety will be hard to beat.

Bulbs any size \$3.00 each.

**SIBONEY** (Allen 1948) 566 90 days

A clear medium lavender self-blending, a little deeper in the throat, 50 to 60 inches tall, 8 to 10 open on a 20 bud spike with a 25 inch flowerhead. The 6 to 7 inch beautiful ruffled florets are firmly attached to the strong spike. The above is originator's description. I had the pleasure of receiving the first spike to bloom of this variety sent to me by Air Express; when placed in water this opens clear to the top holding its size very well. It will replace many of the lavenders on the market today. A wonderful propagator, with very little stock available this has set a record that is hard to beat.

- 2 Awards of Merit 87 and 89
- 1 Divisional Championship
- 1 Second day Grand Champion
- 2 Three Spike Grand Championship
- 2 Sectional Championship
- 1 Largest Floret in Show
- 2 Grand Champion Seedling
- 6 First Prizes
- 1 Amer. Home Achievement Award
- A rating at International Show  
(Very Superior)

Undisputed queen of the lavenders. A sensational variety that you will soon be growing.

Price any size \$5.00. Bulblets sold only with the purchase of bulb. One bulb and 10 bulblets \$10.00.

**SIBONEY**

FROM L. G. KLEIN

ADORATION (L. G. Klein 1948) (4208) (Prelude x Zauberflote x Picardy)

A “new color” being a pink orchid with a creamy throat, a perfect blend. This beautiful colored glad will be popular with the florists, as it blooms out at once. Bulb-lets make extraordinarily strong growth and a large percentage make cutable spikes.

A tall grower 54 inches. The 24 inch flowerhead carry 16 to 17 buds and of these 7 perfectly placed 5 inch florets open at once. Double placement is usual with florets tied in tight to stem and slightly frilled.

The all round growth and increase of this variety is most unusual and it has double the usual number of stamens and pistils. Possibly these two facts are correlated.

Following the name of the variety is the name of the originator, size and code number, and blooming date as classified by the North American Gladiolus Council. The first figure in the size number indicates the size of florets, while the last two digits give the color class.

SIZES:

MEDIUM GLADS	300	Above 3¼ through 4¾
LARGE GLADS	400	4½ through 5¾
GIANT GLADS	500	5½ inches and larger

COVER GIRL (La Salle 45) 442 90 days A giant medium pink that opens ten to twelve huge blooms. It grows up to six feet tall and was awarded a first class certificate at Boston in 1944.	1 10	.50 4.00	.35 2.80	.20 1.60	10 100	.25 2.00
CRACKER JACK (Allen 46) 325 75 days A deep orange yellow with 16 buds six open wtih five more showing color. The 4½ inch florets are wide open; has very good texture and placement. I believe it will become a leader for all purposes. It is a grand champion winner and one you should grow.	1 10	.50 4 00	.35 2.80	.20 1.60	10 100	.25 2.00
CRINKLE CREAM (Ellis 40) 410 A large, ruffled, clear light yellow that is one of the best varieties for show or commercial use.	1 10	.50 4.00	.35 2.80	.20 1.60	10 100	.25 2.00
DAISY MAE (Lins 45) 441 90 days Beautiful orange pink with a cherry throat blotch, opens eight large blooms on a tall eighteen bud spike. A wonderful producer of bulblets that grow nearly 100%. One that is a wonderful commercial and show glad. TRY DAISY MAE.	1 10	.75 6.00	.50 4.00	.25 2.00	10	.50 —
DANNY DANTON (Kaylor 46) A deep ruby red with a deeper throat blotch and although the spikes are of medium height it cuts beautifully, as it can be cut close to the ground.	1 10	.25 2.00	.20 1.60	.15 1.20	10 100	.25 2.00
DEBORAH SAMPSON (Scheer) 440 85 days Pastel blend of delicate pink and buff with eight to ten medium sized florets open on a long flowerhead of twenty two buds. It is a strong healthy grower and one that will become very popular.	1 10	2.50 20.00	1.50 12.00	1.00 8.00	1 10	.25 2.00
DELILAH (Scheer 44) 520 80 days Clear, rich, deep salmon orange, blending to a light cream throat with faint markings. It is a tall grower with eight open blooms and five showing color. The blooms are five to six inches across. It is a strong grower and a wonderful propagator, surely the best in its color, try Delilah.	1 10	1.50 12.00	1.00 8.00	.50 4.00	2 25	.25 2.00
DESTINY (Butt 43) 536 85 days Very tall strong spikes of bright orange scarlet with white arrows in the throat. This is an extra large variety that growers think is one of the best; a very good grower.	1 10	.30 2.40	.20 1.60	2-.25 1.00	20 100	.25 1.00

<b>DIEPPE</b> (Hassel 45) 432 85 days Deep salmon red with a darker blotch, a distinctive and beautiful color. It opens 6 to 7 on a tall straight spike, a good grower and propagator that has become one of the most popular glads.	1 10	.75 6.40	.50 4.00	.35 2.80	10 100	.60 4.50
<b>DR. VAN DOBBEN DE BRUYN</b> (Salmon) One of the best pure white, especially suited for cutflower culture. Height 5 ft. strong 23 bud spikes with 6 to 8 open 5 to 6 inch florets. A new Dutch variety.	1 10	.50 4.00	.35 2.80	— —	10 100	.50 4.00
<b>DREAM CASTLE</b> (Lins 43) 440 A warm light coral pink blending to a light cream throat. The florets are always firmly attached to the stem which is very straight. It opens six to eight blooms and is a good commercial.	1 10	.40 3.20	.30 2.40	2-.35 10-1.25	10 100	.50 4.00
<b>DUSTY MILLER</b> (Elliott 45) 486 A smoky old rose having a light red blotch with cream pencilling. This is one of the best new smokys and has won about every prize in its class. A wonderful performer.	1	.75	.50	.25	10	.75
<b>ELANORA</b> (Errey 37) 470 85 days A rich rose-red-violet which opens twelve florets with the rest of the buds showing color. A good grower and one that has won hundreds of ribbons.	1 10	.15 1.20	2-.20 .80	— .50	25 100	.25 .75
<b>ELIZABETH THE QUEEN</b> (White 41) 566 86 days A beautiful lavender with darker lines in the throat. It has large ruffled blooms with eight open and is one of the most beautiful glads grown. Our stock of this is extra good and seems to grow taller than most stocks.	10	1.20	.80	.40	100	.50
<b>ETHEL CAVE COLE</b> (Cave 41) 440 80 days A light pink which opens eight large blooms and is a good cut-flower. The stems are a little weak for the heavy blooms and it should be picked as soon as the first one opens.	10	.80	.60	.40	Pkg.	.25
<b>EUNICE EWING</b> (Kaylor 45) 470 85 days A very striking contrast, outer petals are a deep purple, inner are a glistening snow white. It is a tall grower with medium sized florets and opens up to ten.	1 10	.50 4.00	.35 2.80	.25 2.00	10 100	.50 4.00

<b>EXCLUSIVE</b> (Krueger 45) 507 85 days Exclusive is a beautiful cream with a rose blotch. The florets are very large and open flat, they may be misplaced at times. This is a glad for the show fan.	1 10	.50 4.00	.35 2.80	.25 2.00	10 100	.40 3.00
<b>FABULOUS</b> (La Salle 46) 443 85 days A deep pink with a double half circle blotch that is different and distinctive. The inner blotch is a bright cherry red and is bordered by a light cream blotch. It opens six five inch blooms on a tall strong spike. A nice glad that is different.	1	2.00	1.50	1.00	10	2.00
<b>FAIR ANGEL</b> (Hatch 42) 400 85 days Early large creamy white with a deeper cream in the throat. It opens eight six inch ruffled blooms on a tall spike. We found early plantings of this better for us than Leading Lady.	10	.80	.50	.40	Pkg.	.25
<b>FAIRHALL</b> (JULYAN 40) 412 A variety of great promise and a valuable addition to the yellow class. It is a rich deep yellow of good form, size and placement and is a good strong grower which opens eight or more at a time. The stock is limited and only a few will be sold.	1	2.00	1.50	1.00	1	.20
<b>FIANCEE</b> (Lins 43) 440 85 days A greatly enlarged version of sweetheart, the plants are taller and the flowers much larger. This is a clean pink with a large white blotch.	1 10	.20 1.60	.15 1.20	.10 .80	10 100	.20 1.50
<b>FIREBRAND</b> (Butt 44) 452 85 days This glad is well named, for the many large open florets of this fine red do suggest a brand of fire. It grows tall with long flowerheads and is one which you can't afford to do without.	1	.40	.30	.20	10	.25
<b>FIRST LADY</b> (Roberts 45) 432 85 days This is a tall strong growing pink with a small cream blotch. It has six or more five inch florets open, on a good flowerhead. It's propagation and germination are satisfactory.	1	.50	.35	.20	10	.40
<b>FLAGSHIP</b> (Butt 38) 451 77 days This is a tall light red with white throat markings and has ten to twelve well placed blooms open at a time. It is a fine exhibition variety.	10	.80	.60	.40	Pkg.	.25

**BIRCHVILLE GARDENS — Plainville, Connecticut**

	Per	Large	Med.	Small	Bulblets	Per
MAGNOLIA (Palmer 40) 460 85 days A light creamy rose that opens six to eight on a nice spike. In my opinion, this is one of the best cut-flowers and growers are just beginning to realize that Magnolia is a must have.	10	.80	.50	.30	Pkg.	.25
MALTA (Palmer 42) 562 85 days This is a begonia rose, a sister seedling of Corona, and like that variety in habits. It is a tall grower with six huge florets open on a good flowerhead.	1 10	.15 1.20	2-.20 .80	3-.20 .50	Pkg.	.25 .25
MARGARET BEATON (Twomey 37) 501 A large snow white with an orange blotch, has tall spikes and is one of the most popular glads.	10	.80	.50	.25	Pkg.	.25
MARGARET WOOD (Marshall 47) 470 A deep wine color that attracts a lot of attention. The florets are of a giant size, up to seven inches and due to it's heavy stem and extra large, well filled buds, it will open clear to the top after cutting. The color is fadeproof, and we predict that this variety has what it takes to become a very popular glad.	1	1.00	.60	.40	20	1.00
MARGUERITE (Pommert 39) 533 80 days A very large watermellon pink with a cream throat. We are offering a select stock of this, as ours grows taller and better all the time.	10	1.00	.60	.40	Pkg.	.25
MARSEILLAISE (Scheer 41) 536 80 days A grand late red that is a glowing, deep crimson scarlet shade. It is tall and has six inch florets and is a strong, healthy grower. We cut hundreds of spikes from bulblets last year; a favorite with all the florists.	10	1.20	.80	.60	25 100	.25 .75
MARTHA DEANE (Guilles 46) 410 85 days A tall yellow of good floret size with a small red line in the throat. It opens eight, has a good show record and was fine this past season.	1 10	1.00 8.00	.75 6.00	.50 4.00	15 100	1.00 5.00
MAX REGER (Pfitzer 35) 377 72 days An old time light blue of medium height which opens six to eight florets. It is still one of the best blue glads and prettier than most.	10	1.00	.60	.40	Pkg.	.25

	Per	Large	Med.	Small	Bulblets	Per
<b>MAYLING</b> (Hatch 43) 440 85 days A pale pink with a lavender tint, opens eight and is a very good grower. The spikes are tall, florets are ruffled and of very good texture. This glad is sure to become better known.	10	1.00	.50	.30	Pkg.	.25
<b>MELROSE</b> (Lins 43) 462 85 days Melrose is a deep rose with a bluish cast and produces spikes of medium height. It is a very striking and beautiful glad and produces bulblets which make very rapid growth into large bulbs.	1 10	.20 1.60	.15 1.20	2-.20 .80	15 100	.25 1.00
<b>MERCURY</b> (Lins 47) 436 85 days A brilliant vermilion red that opens eight to ten large florets. This is one of the very best reds, a real bright glad that gets a lot of attention. It is a very heavy show winner.	1 10	.20 1.60	2-.25 1.00	4-.25 .50	25 100	.25 1.00
<b>MINSTREL</b> (Palmer 44) 566 85 days The giant of the lavender class. A lavender pink with up to seven inch florets which are ruffled and needlepointed. It opens five to six on a fairly long flower-head, a good show glad.	1 10	1.50 12.00	1.00 8.00	.60 4.80	10 100	1.00 8.00
<b>MISS BLOOMINGTON</b> (Kundred 29) 310 70 days This is a very tall light yellow with eight open. One of the best commercials, should be allowed to open in the field.	10	.60	.40	.25	Pkg.	.25
<b>MISS VERMONT</b> (Hatch 45) 540 80 days A delicate ruffled pale lavender, shades lighter in the throat. Opens eight to ten on a long straight. This is a beautiful variety.	1 10	.60 4.80	.40 3.20	.25 2.00	10 100	.30 2.00
<b>MISS WISCONSIN</b> (Krueger 43) 560 90 days There is no competition for this rose glad. It opens six to eight, five inch florets on good spikes, a wonderful show glad and one that growers are buying in large quantities. One of my favorites.	1 10	.50 4.00	.35 2.80	.20 1.60	10 100	.50 4.00
<b>MISTY DAWN</b> (Rich 41) 580 95 days A tall, smoky gray or blue salmon, a great show winner. The florets are well arranged on a good spike. This smoky is hard to beat and is a favorite with the ladies.	10	.80	.60	.40	Pkg.	.25

MOHAWK (Stevens 40) 454 85 days A dark maroon red that grows 55 to 60 inches tall with up to eight open. The best all around dark red which is a good show variety and cut flower.	10	1.00	.50	.30	Pkg.	.25
MONEETA... (Stockton 39) 411 90 days A fine light yellow with a small scarlet blotch, really different. A dozen of these is really something to look at.	10	1.20	.80	.60	50	.20
MONTPELIER (Hatch 47) 440 85 days Color clear pink, no flecking. Will grow 72 inches high, 30 inch head. 20 to 24 buds. 8 to 10 open 5½ florets open at once. The best release from Hatch to date. A very promising new variety.	1	2.00	1.50	1.00	10	2.00
MOONRAY (Harris 45) 410 A decided improvement in the light yellows. 8 nicely placed florets open at a time have seen 12 open, an easy grower that will become popular. Recommended.	1 10	.75 6.00	.50 4.00	.25 2.00	10 100	.50 4.00
MOTHER KADEL (Kadel 41) 410 77 days A clear, medium yellow, five to seven well placed blooms open on a spike of 15 to 17 buds. The best commercial yellow on the market today.	10	1.00	.60	.40	1	.25
MOUNTAIN GEM (Requa 46) 436 80 days A deep red or scarlet that grows 65 inches tall. This glad was given an award of merit at the Maryland trial gardens. It has a 24 inch flowerhead with eighteen buds.	1 10	1.50 12.00	.75 6.00	.50 4.00	10 100	.80 6.00
MRS. EDNA DANIELS (Daniels 41) 416 87 days A buff pink or brown that is odd but beautiful. One that all visitors like and buy so that stock remains on the scarce side.	1 10	.40 3.20	.25 2.00	.15 1.20	10 100	.40 3.00
MT. INDEX (Miller 42) 401 68 days A very early cream white with a golden blotch, very tall with eight open. One of the most beautiful varieties, with it's good spikes, color, and earliness. This is the best commercial glad on the market today.	1 10	.20 1.60	.15 1.20	2-.20 .80	25 100	.50 1.50
MYRNA FAY (Lines 46) 462 85 days An attractive medium shade of lavender, often flecked deeper. Opens eight to ten on a medium tall spike. It blooms well from all sizes and is one that is extra good for early blooms.	1	2.50	1.50	1.00	10	2.00

	Per	Large	Med.	Small	Bulblets	Per
<b>MYSTERY</b> (Stinson 44) 541 85 days A cool pink with a touch of rose in the throat. It has large spikes with 20 buds, 9 open and 7 in color, it's wide open florets measure seven inches and are frilled. This is a very good glad.	1	.50	.35	.20	12	.50
<b>NEON</b> (E. H. Young 44) 442 95 days A medium pink that is a 100% cutter of very good spikes, florets have good texture and are well placed. It has 4½ inch blooms with 8 to 10 open on a twenty bud spike. This is one of the new ones that I really fell for.	1	2.00	1.50	1.00	10	1.50
<b>NEW EUROPE</b> (European 47) 536 100 ds. A wonderful brilliant red that is a very strong grower. The tall strong stems bear huge florets, with eight to ten open. This is a new glad from Europe that has become very popular.	1 10	.25 2.00	.15 1.20	2-.15 .80	Pkg.	.25 —
<b>NORMANDIE</b> (Miller 41) 440 A strong, sturdy grower, that has tall spikes with up to ten open. It is a pink with considerable yellow or deep cream. It has large, well placed florets and is one of the very best glads.	1 10	.75 6.00	.50 4.00	.35 2.80	10 100	.75 6.00
<b>OCTOBER SUNSHINE</b> (Quackenbush 47) This glad will become a leader because of it's beauty. The color blends from orange to a golden yellow throat. It opens from five to six recurved florets on an 18 bud spike with eight showing color. The fifty two inch spike is always straight.	1	2.00	1.00	.50	10 100	1.60 12.00
<b>OHIO NON PAREIL</b> (Wilson 41) 550 85 d. A big scarlet red with tall spikes that open nine six inch blooms. The florets are well placed. This glad grows better with me than King Click.	10	.80	.60	.40	Pkg.	.25
<b>OKLAHOMA</b> (Wilson 45) 390 90 days Another "WHAT A GLAD" color marvel that holds a spell over all who see it. It is a pinkish lilac or lavender gray with a cream throat. It opens seven on an eighteen bud spike, about fifty inches tall, with perfect placement. DON'T FAIL TO TRY OKLAHOMA.	1 10	.60 4.80	.40 3.20	.25 2.00	10 100	.60 5.00
<b>ORANGE GOLD</b> (Marshall 45) 422 80 days Here is a wonderful glad of golden orange shade that will open five large round florets on a tall spike. This is among the best of the new glads and really will win your approval.	1 10	1.00 8.00	.60 4.80	.40 3.20	10 100	.60 5.00

	Per	Large	Med.	Small	Bulblets	Per
<b>ORANGE PRINCE</b> (Snyder 45) 324 80 days A sport of Vagabond Prince that is a dazzling orange color slightly on the red side, with flame markings in the throat. It is a good grower and will become popular.	1 10	.50 4.00	.30 4.20	.20 1.60	20 50	.50 1.00
<b>OREGON GOLD</b> (Majeski 41) 410 96 days A tall late yellow, it is a large ruffled glad and is a good keeper. We cut thousands of these spikes for our trade this past fall.	10	1.00	.60	.40	Pkg.	.25
<b>ORIENTAL PEARL</b> (Carlson 46) 506 85 days A rich cream with very large wide open florets 6 to 7 in. across. It is a tall grower and one dozen makes an armful, heavy propagator.	1 10	2.00 16.00	1.50 12.00	1.00 8.00	1 10 100	.25 1.80 12.00
<b>PADRE</b> (Leffingwell 41) 321 85 days Light orange shading to yellow with a darker orange blotch. Up to 12 open blooms on a 20 bud spike. Odd and very attractive.	1 10	.25 2.00	.15 1.20	2-.20 .80	20 100	.25 1.00
<b>PAYMASTER</b> (D. S. Pruitt 47) A real royal purple with one narrow clear cream spear on each lip petal. A strong grower with 5½ plain wide open florets on a 60 inch spike with 18 buds, 6 open and 8 showing color. Twenty-eight inch flowerhead. It has life and is a real good purple.	1	—	1.50	1.00	10	1.60
<b>PEGGY</b> (West 46) 336 80 days A clear light lavender self-color which never flecks. Opens six 4½ inch florets on a spike 60 inch tall. Was outstanding this past summer. A real nice glad.	1 10	3.00 24.00	2.00 10.00	1.00 8.00	1 10	.40 3.00
<b>PHANTON BEAUTY</b> (Bastian 47) Large light pink that shows 13 huge six inch wide open florets. The 30 inch flowerhead has perfect placement and is a strong grower. One of the best, new glads.	1	7.00	5.00	3.00	1	.60
<b>PHOEBE</b> (Scheer 42) 432 96 days A clean pink with long flowerhead with 6 to 8 open. The six inch blooms are well placed on a tall spike. This is a real pink the shade you see in baby blankets. Extra nice!	1 10	.50 4.00	.35 2.80	.20 1.60	20 100	.25 2.00

	Per	Large	Med.	Small	Bulblets	Per
<b>PICARDY</b> (Palmer 31) 530 90 days The well known Picardy is a beautiful light salmon pink, I have not offered this for the past 5 years, now have a healthy train of this glad that will give marvelous spike.	10 100	.75 5.00	.50 3.00	.30 1.50	Pkg. Qt.	.25 3.00
<b>PINK CHARM</b> (La Salle 46) 542 80 days A solid medium pink with a decided waxy appearance. Color darkens deep in the throat. Opens six 5½ inch florets on a 50 inch spike, no crooks. A good commercial.	1 10	2.00 16.00	1.25 10.00	.50 4.00	1 10	.25 2.00
<b>PINK PARAGON</b> (Cassabaer 43) 342 Bright clear pink opens 5 to 7 blooms on a long flowerhead. One that florists are fond of, outstanding as a commercial.	10	1.00	.60	.40	Pkg.	.25
<b>PINK RADIANCE</b> (Quackenbush 41) 440 85 days A pure pink, opens 6 to 8 on a tall spike. A very dependable "glad" and one of my favorites.	10	.70	.60	.40	Pkg.	.25
<b>PIONEER</b> (La Salle 45) 532 85 days A giant, deep salmon pink, blending to a cream throat. It opens six to eight six inch blooms on a five and one half foot spike. The spikes are straight, strong, and tall.	1 10	.50 4.00	.35 2.80	.20 1.60	10	.50 —
<b>PRINCESS ROYAL</b> (Beaton 47) 500 A giant, glorious white with a faint lavender spear or feather. It has six or seven large blooms open on a twenty two bud spike which grows sixty inches tall. It has received an award of merit and is outstanding.	1 10	2.00 16.00	1.50 12.00	1.00 8.00	1 10	.25 2.00
<b>PURPLE SUPREME</b> (Wilson 42) 470 85 days One of the good purples for show and commercial use. It opens eight on a very tall spike, is a heavy propagator and a glad which everyone seems to like.	10	1.20	.80	.40	50	.25
<b>RECADO</b> (Palmer 37) 490 90 days A large smoky rose that is an easy grower, this has been one of my best sellers for the past five years, very odd.	10	.80	.40	.25	Pkg.	.25
<b>RED CHARM</b> (Butt 39) 452 85 days Surely one of the best reds, growers have brought this in very large amounts. It is one of the best show glads as well as the leading cut flower red, outstanding.	10	1.00	.50	.30	Pkg.	.25

<b>TUTS BOTH</b> (Both 43) 422 80 days A deep, pastel reddish orange, has huge, wide open florets with six to eight open on a tall strong spike. This is a truly magnificent variety which you will enjoy growing. It is a good show glad which has an award of merit from the Cleveland and R. I. shows. It has also been section champion many times.	1 10	.75 6.00	.50 4.00	.25 2.00	10 100	.75 6.00
<b>TWILIGHT</b> (Kaylor 45) 466 70 days A pale lavender, on a white tinted lavender with wavy edges and a fifty inch spike.	1	1.00	.75	.50	10	.80
<b>TWILIGHT DREAM</b> (Heberlein 47) 480 A smoky, rose, tan and cream perfectly blended. It is a medium tall grower and opens six on a straight spike.	1 10	3.00 24.00	2.50 20.00	2.00 16.00	1 10	.25 2.00
<b>VEE CREAM</b> (Van Voorhis 39) 407 85 days A pale cream with a fiery blotch, many open on a long flowerhead. Bulbs are poor looking but grow well.	10	.80	.60	.40	Pkg.	.25
<b>VENIDA</b> (Milo 47) 460 87 days It is my opinion and also the opinion of many other growers that this is one of the most beautiful glads. It is a beautiful rose color shaded with lavender and has a big cream blotch. It grows fifty to sixty inches tall with up to twenty eight buds, one you will surely want.	1 10	4.00 32.00	3.00 24.00	2.00 16.00	1 10	.50 4.00
<b>VICTORY QUEEN</b> (Wilson 45) 530 90 days Beautiful salmon orange, with a cream throat. A tall strong grower with 6 to 8 large florets open on a 28 inch flowerhead. A sure winner and a coming commercial. Wilson's best.	1 10	.75 6.00	.50 4.00	.25 2.00	10 100	.50 4.00
<b>VISTA BONITA</b> (Ellis 36) 432 88 days An immense geranium pink that has been a great show glad, winning best spike and champion awards many times, six feet tall.	10	.80	.60	.40	Pkg.	.25
<b>VOODOO</b> (Kadel 44) 580 80 days Voodoo is a great novelty and exhibition glad. It has six inch ruffled and needle-pointed florets and is a smoky, wine bronze or plum. It is a good show glad that has won four sectional championships and the American Home achievement medal.	1	.50	.35	.25	10	.40

	Per	Large	Med.	Small	Bulblets	Per
<b>VULCAN</b> (Dr. Stevens 42) 470 82 days A nice shade of purple that opens six to seven large, wide open blooms. It grows tall and is very beautiful for use in baskets, the ladies rave over this one.	10	1.20	.80	.60	Pkg.	.25
<b>WANDA</b> (G. V. Snyder 41) 406 82 days A popular cream sport of Picardy that has the same growing habits and the same sized florets. This is very popular in the New York market.	10	.80	.50	.30	Pkg.	.25
<b>WAR PAINT</b> (Kadel 47) 437 85 days This has ten large scarlet florets open on a twenty two bud spike. It is fifty five inches tall and has a twenty seven inch flowerhead. Winner of the American Home achievement medal and a sensational glad.	1 10	3.00 24.00	2.00 16.00	1.00 8.00	1 10	.30 2.40
<b>WAX MODEL</b> (Krueger 46) 400 75 days The white florets of Wax Model carry a hairline of lavender rose. It grows tall and opens six five inch florets on a seventeen bud flowerhead; very good spikes.	1 10	2.00 16.00	1.50 12.00	1.00 8.00	1 10	.25 2.00
<b>WHITE GOLD</b> (Scheer 41) 506 70 days A very large cream, tall grower and one of the sensational show glads It has won about every prize you can think of and is a very good early commercial.	10	.80	.50	.30	Pkg.	.25
<b>WINSTON</b> (Palmer 41) 406 75 days A clear, bright cream white, shading to a lemon throat, five to six beautiful waved and ruffled florets open on a tall spike. Good for late cutting, as the Fall dews have lit'le effect on it.	10	1.00	.50	.30	Pkg.	.25
<b>W. R. READER</b> (Turnbull 42) 530 70 days A light salmon from Canada that has a wonderful show record, six to eight open on a fine spike with wonderful placement.	1 10	.20 1.60	.15 1.20	2-.20 .80	10 100	.20 1.50
<b>YANGTZE</b> (Harris 41) 312 A deep empire yellow of large size, a first class easy growing yellow that is very popular in Canada. This is a really fine yellow and will become very popular.	10	1.00	.70	.40	Pkg.	.25
<b>YANKEE LASS</b> (Schenetsky 46) 440 87 days A beautiful bright pink that grows sixty inches tall with ten five inch florets open on a long flowerhead. Won the Conn. award of Merit 1944. A sensational glad, if you miss this one you'll be sorry.	1 10	5.00 40.00	3.50 28.00	2.00 16.00	1 10	.60 5.00

## UNLABELED COLLECTION OF ASSORTED GLADS

Many folks desire to plant Gladiolus, but do not care to bother labeling the different kinds. To satisfy these buyers we have made up the following unlabeled collections. All are put up in good color balance. However, if you have a preference for certain colors, just mention it, and I will act accordingly. All are very good buys and would cost much more if bought under name.

RAINBOW COLLECTION		OUT-OF-THE-ORDINARY COLLECTION	
Large Bulbs	Medium Bulbs	Large Bulbs	Medium Bulbs
25 — \$1.50	25 — \$1.00	25 — \$2.50	25 — \$1.25
50 — \$3.00	50 — \$1.75	50 — \$5.00	50 — \$2.50
100 — \$5.00	100 — \$2.75	100 — \$10.00	100 — \$5.00
200 — \$9.00	200 — \$5.00	200 — \$18.00	200 — \$9.00

**WANTED**—I am always interested in the purchase of outstanding seedlings, so if you have one I would be pleased to talk it over with you.

VENIDA

Mixed bulbs are of good quality, not the discards as some growers sell at lower prices. If you like certain colors better than others, let us know, and we will see that you get them.

MIXED BULBS PER 1,000			
Large	\$38.00	Medium	\$25.00
		Small	\$15.00

## FORMULAS FOR DIPS AND SPRAYS

### LYSOL DIP

4 tablespoons of Lysol  
3 gallons of water  
or  
1 pint of Lysol  
25 gallons of water.

Soak bulbs in the Lysol solution for at least 3 hours and no longer than 6 hours; soak bulblets overnight or 12 to 14 hours. After bulbs or bulblets are removed from the solution, allow to drain for 30 minutes and plant same day as treated, preferably while still wet.

### BICHLORIDE OF MERCURY

1 oz. Bichloride of Mercury  
7 gallons of water

Soak 10 to 12 hours immediately preceding planting. Plant wet. Must be used in an earthen or wooden container.

### NEW IMPROVED CERESAN DIP

1 ounce New Improved Ceresan  
3 teaspoon measures Crasselli Spreader Sticker or 3 teaspoons Dreft  
3 gallons water

To get a good preparation easily and quickly, mix the Ceresan and wetting agent together, add a little water at a time, and stir until a uniform mixture is obtained. DO NOT USE THE HANDS WHEN STIRRING. Soak bulbs in the solution for 15 minutes, stirring several times during treatment; soak bulblets for 30 minutes. After bulbs or bulblets are removed from the solution, allow them to drain for about 30 minutes and plant IMMEDIATELY. A delay in planting can cause injury to the bulbs. If the ground is dry at planting time, I suggest the Lysol treatment instead of N.I.C. as dryness can cause a considerable delay in germination or growth besides possible injury to the bulbs.

### THRIP SPRAY

2 ounces Tarter Emetic  
2 ounces brown sugar  
3 gallons water  
Mix well and spray weekly after the foliage is in third leaf.  
or

½ lb. DDT (50%)  
½ pint liquid soap (Germicidal)  
25 gallons of water

For small plantings the following DDT spray is reported as giving good results:

1 rounded teaspoonful DDT (50%)  
½ teaspoonful Dreft  
1 gallon water

DUSTING—The easiest and most efficient means of controlling Thrips is to dust the foliage of the plants with 5% D.D.T. Many types of dusters are available and one can be obtained to suit your size planting. Begin dusting when plants are in third leaf and continue about every two weeks. If this is done you can say goodbye to Thrips!

CAUTION: Bichloride of Mercury, Lysol, New Improved Ceresan, Tarter Emetic, and DDT are poisonous and care should be taken in handling and storing these materials.

## CULTURAL HINTS

Packages of bulbs must be opened as soon as received and the bulbs stored in a cool, dry place until planting time.

**PLANTING DATES.** Any time from early Spring until the first of July. The blooming season can be prolonged until frost if planted at intervals of every three weeks.

**WHERE TO PLANT.** Glads should be planted open, sunny places, away from buildings and trees. They are primarily cut flowers and should be planted in rows such as a vegetable garden.

**SOIL.** Glads will grow in any kind of soil but do best in a sandy loam. The soil must be well drained. It pays to spade deeply.

**FERTILIZING.** The amount to use will depend upon the fertility of your soil. Any good commercial fertilizer will give good results or you can ask your dealer for the fertilizer commonly used on potatoes in your locality. Most growers prefer to place the fertilizer in the bottom of the trench as the bulbs are planted. Care must be taken to see that the fertilizer is mixed with the soil and then about 2 inches of soil placed over the mixture. The bulbs should then be set in the row, leaving the 2 inches of soil between them and the fertilizer.

**DISINFECTING.** All bulbs and bulblets should be dipped in a disinfectant in order to kill Thrips and to prevent possible disease infection on the bulbs. Nothing will cure bulbs affected with any of the rots. Bulbs showing rot should be discarded at once. (See formulas for Dips and Sprays.)

**PLANTING.** Plant from 3 to 6 inches deep. Small bulbs should be planted about 3 inches deep and larger sizes up to 6 inches deep. If you have a heavy clay soil 4 to 5 inches will be deep enough. The bulbs should be set not closer than 4 inches apart in the rows and the soil must be firmed well after planting.

**WATERING.** Glads need plenty of moisture. To produce top bloom they should have 1½ to 2 inches of water per week. Whenever the natural rainfall fails to supply this quantity be sure to put it on in the form of irrigation. It is best to water just once or twice a week, soaking the soil well, so that the roots are not pushing upward to the surface of the ground.

**CUTTING BLOOMS.** Glads are the most popular cut flower grown today. To enjoy them at their best the spikes should be cut when the first floret is in full bloom. They should be placed in water at once and taken indoors to develop slowly. You can enjoy a spike a long time as a good variety will open every bud to the tip, in water. If the water in the vase is changed daily and about an inch of the stem is cut off (slantwise) each day, many varieties will keep for as long as a week. When cutting the spike always leave 4 leaves on the plant to develop the bulb for next year.

**DIGGING.** Bulbs should not be dug until about 6 weeks after blooming. This is in order to mature the bulbs. A good sign is to watch the foliage and when it begins to turn brown, dig at once. After the tops are cut off, close to the bulb, dry the bulbs in the air in trays or boxes. It is best not to allow the sun to shine directly on them while drying. After 2 or 3 weeks of drying the old bulb and roots can then be removed. DO NOT remove the husks as this protects the bulb during storage.

**STORAGE.** After drying, the bulbs should be stored in screen bottom trays or boxes in the coolest place available. They must not be exposed to freezing temperatures. The ideal storage temperature is 38 to 45 degrees. Bulbs should not be placed too deeply in the boxes as they need air while in storage.

When you get ready to store your bulbs, be sure to give them a light dusting of 5% D.D.T. This will eliminate any danger of thrips feeding on your bulbs during storage period. Glads are easy to grow and anyone, even a beginner, can grow the finest show flowers!

## CONNECTICUT GLADIOLUS SOCIETY

THE CONNECTICUT GLADIOLUS SOCIETY invites every glad lover and grower to become a member, Dues are \$2.00 per year. This will entitle you to the Bulletins put out by the Connecticut Society three or four times a year, also to the Bulletins of the North American Gladiolus Council. These will keep you well informed on gladiolus.

Connecticut Fans! Join a real Glad Society. Meet the different growers and learn more of our favorite flower. Meetings are held in November, January, February and March. I will be pleased to forward your membership.

BIRCHVILLE GARDENS — James A. Milo

---

## NORTH AMERICAN GLADIOLUS COUNCIL

Anyone growing gladiolus should join the North American Gladiolus Council. It will supply you with the latest information on gladiolus diseases. Best dip and sprays. Talks on the best new varieties by growers, show and trial garden reports, you will appreciate the four magazines they issue each year. You may become a subscribing member at the cost of one dollar a year. Send check or money order either to me or the secretary, Thomas R. Manley, Oglebay Park, Wheeling, W. Va. If you love glads you can't do better then to join the Council at once.

## EASTERN INTERNATIONAL SHOW

BINGHAMTON, N. Y. — AUGUST 17 & 18, 1948

This will be the largest show in the east. Those who were at the 1947 show are still talking about it, without a doubt the largest show of all times, and I am sure that the 1948 show will be just as large and of the same high quality. Why not plan to be there and meet your favorite growers. Plan to bring your best spikes—the show committee will welcome you and help you set them up.

DON'T FORGET THE CONNECTICUT SHOW AT HARTFORD, AUGUST 14-15.

FLORENCE NIGHTINGALE
